Government of West Bengal
Department of Higher Education
Technical Branch
Bikash Bhavan, Salt Lake, Kolkata - 700 091

No. 326 - Edn(T)/10M-70/2012 **Dated, Kolkata 14th June 2013.**

Order

Whereas, the Higher Education Department, vide no. 272 - Edn (T) dated 1.7.2011, had notified the West Bengal Free-ship Scheme (WBFS) extending the benefit of full and half tuition fee waiver to meritorious students from economically weak backgrounds admitted into undergraduate level engineering and technology courses in the State. The said Scheme provides full tuition fee waiver to ten percent and half tuition fee waiver to another ten percent of the approved students admitted into each course in Government engineering colleges, engineering departments of State-aided universities and in those private / self-financing engineering and technology institutes which opt to admit students under the Management Quota;

And whereas, several complaints have been received from eligible students with regards to actual implementation of the Scheme in some of the private / self-financing engineering and technology institutes. Feedback has also been received from the West Bengal Joint Entrance Examinations Board (WBJEEB) and the West Bengal University of Technology that the Scheme is not being implemented optimally by the private / self-financing engineering and technology institutes, thus adversely affecting the interest of the Scheme's intended beneficiaries;

And whereas, to ensure that the intention of the Government of providing financial assistance to the meritorious students from economically weak backgrounds is faithfully translated into action, the Scheme's implementation has been reviewed in the Fee Structure Committee, and it has been found that the main weakness in ensuring actual implementation in private / self-financing engineering and technology institutes is its linkage to admissions under the management quota. The underlying principle has been that self-financing Engineering & Technology institutes may introduce a management quota of ten (10) percentage of approved intake of the institute and be allowed to charge a tuition fee up to three times of the normal fee with a corresponding obligation to provide the Free-ship Scheme to eligible students;

And whereas, this linkage of the free-ship to the management quota has been identified as a major reason due to which the full benefits of the Scheme are not reaching the intended beneficiaries. Several institutions, especially the ones located away from urban centres, have reported that they are not admitting students under the management quota, and hence claiming that they are not obliged to

provide free-ship to needy students. Others have reported cases where admissions under the management quota were taken but the students eventually left midway, and hence the institute's obligation to provide free-ship stood reduced. It is also seen that for the Academic Year 2013-14, several institutions have conveyed that they would not admit students under the management quota. Besides the above issues, monitoring the actual number of admissions under the management quota is cumbersome, time-consuming and hence, ineffective.

And whereas, to render the implementation of the Scheme more transparent, less opaque and easy to monitor, and to ensure the financial benefit actually reaches the eligible students from weak economic backgrounds, it has been decided that the linkage between the management quota and the free-ship scheme needs to be rationalised. Such a step will oblige the managements of the private / self-financing engineering and technology institutes to provide the free-ship benefits to eligible students irrespective of whether students have been admitted under the management quota. A linkage, instead, to the tuition fees chargeable by these institutes, as fixed by the Fee Structure Committee from time to time, would be a more sure way of ensuring that the Free-ship Scheme reaches a larger number of needy students.

And therefore, after a comprehensive review of the Scheme's implementation and in light of the considered recommendations of the Fee Structure Committee, the State Government has decided, in partial modification of the Order no.272-Edn (T) dated 01/07/2011, to revise the provisions of the West Bengal Free-ship Scheme (WBFS) in so far as they relate to private / self- financing engineering and technology institutes, as under:

(i) The private / self-financing engineering and technology institutes implementing the fees as revised by the Fee Structure Committee for 2013 – 2014, will provide half free-ship to 10% of the students admitted in each of Engineering / Pharmacy / Architecture courses in the academic session 2013-14 during the entire course period, subject to their satisfactory academic performance in the Institution.

(ii)Private / self-financing engineering and technology institutes shall continue to provide Full Tuition Fee Waiver (full free-ship) to 10% of the admitted student in proportion to the admissions made under the management quota category.

It is pertinent to re-iterate that the effective benefit under the various Tuition Fee Waiver Schemes in the State remains at twenty five percent of the total student strength comprising 5% under Tuition Fee Waiver TFW), 10% Half free-ship under WBFS linked to the revised fee-structure and 10% Full free-ship linked to Management Quota (MQ) under WBFS.

The West Bengal University of Technology (WBUT) is entrusted with the implementation and monitoring of the Scheme and it shall provide to the State Government reports at periodic intervals. Furthermore, the 'income-certificate' of the eligible and/or admitted students after physical verification by the WBJEE Board shall be accepted by the respective institute. In case of any discrepancy found by the institute in the same, it should be informed to the Board with intimation to this Department through DTE, WB and WBUT.

Other provisions, including eligibility criteria, 'income-certifying authority' etc. of this Scheme as contained in Order no.272 Edn (T) dated 1st July, 2011; shall remain unchanged.

Library facilities

Dr B C Roy Engineering College, Durgapur, has a well equipped composite library system with the following facilities:

- Central Library is housed in a sprawling **three storied** separate building (1300 Sq. m.)
- Library Hours : 8:00 AM – 8:00 PM
- Rich collection of **Books and Journals**. A department wise break-up of holdings is given in the table later.
- Addition of **large number** of books during each semester.
- A substantial collection of **CD-ROMs / DVDs** relating to books, etc.
- It is a Local Chapter of **NPTEL** (National Programme on Technology Enhanced Learning).
- It is an Institutional Member of **National Digital Library** (MHRD) and designed by IIT Kharagpur.
- **Subscription** to a good number of current journals, both Indian and international. Indian ones are mostly in print version with some in combo version (print + online version combined). International ones are mostly in online version accessible through below mentioned **Full-text databases**:

i) **IEEE (ASPP)** : 190 journals / transactions with back files access since 2005 in the fields of Computer Science & Engineering, Electrical, Electronics + Telecom & related disciplines.
URL: http://ieeexplore.ieee.org

DELNET (Developing Library Network): A very important library network which provides online access, inter alia, to a select list of online full text foreign journals, E-Books, full text US patent literature, union catalogue of books, journals, theses, dissertations, etc. Its Document Delivery Service (DDS), which provides photocopies of required journal articles, chapter of books etc, is extremely useful.

All these online databases provide access to a wealth of information to keep a user abreast of the current wave front of knowledge as well as for retrospective literature search.

- **Electronic Library**: With facilities for access to online and offline databases ,NPTEL Courses, (CDs /DVDs, etc) and downloading of selected materials there from.

- **Book Bank** : Besides the Central Library, students can draw books (one book for each subject in the syllabus for each individual student) from the Book Bank **for retention for the whole semester** (i.e. six months).

- **Departmental Libraries** : Libraries attached to teaching departments serve to meet the requirements for quick reference to books by the faculty members and the students.

- Availability of **special collection of books**, journals, required for the competitive examinations **(GATE, GRE, CAT, MAT, XAT, GMAT, SAT, TOEFL,** etc.) to help the prospective aspirants hone their skills to face these examinations confidently.

  Availability of a **host of Reference Books: Enclopaedia Britannica (31 vols), McGraw-Hill Encyclopeadia of Science & Technology (20 vols), World of Science (20 vols), Modern Power Station Practice (12 vols), Instrument Engineers Handbook (3 vols), Welding Handbook (4 vols), ASM Handbook (relevant volumes of the 27 volume set), Industrial Electronics Handbook (5 vols), VLSI Handbook,** etc, etc**.**

- Accessibility to the book-collection of the Library by author, title, subject, etc through **OPAC (Online Public Access Catalogue)** on several computer terminals spread over the college buildings.

- Holdings of the library books are **computerized and barcoded.**

- Uninterrupted **internet** connectivity.

- **Document Delivery Service:** Arranging photocopies of articles from old learned periodicals to faculty members for R&D purposes.

- Provision of **reprographic** service.

- **The Epilogue** : Provision of all these facilities taken together enables a discerning user to **broaden and sharpen** his/her knowledge base

- Innovation Cell

Innovation and Entrepreneurship Development Cell at Dr. B. C. Roy Engineering College has been established to promote knowledge based and technology-driven start-ups by harnessing young minds and their innovation potential in an academic environment. Students have been motivated to participate in "Smart India Hackathon Programme initiated by MHRD for identifying new technology innovations to solve the challenges faced in our country.

- Social Media Cell

- The intersection of education and technology offers an exciting opportunity for those with digital skills. Educators and administrators alike can leverage social media marketing to enhance their programmes, grow their student body and improve their enrollment procedures.

- Digital Social media platforms help to nurture our student community online and also develop your social media channels among the parental society at large. Thus, we at Dr.B.C.Roy Engineering College, Durgapur have undertaken different Social Media avenues to cater to different demographics and geographical parameters for an effective communication strategy. We have given social media communication and digital new media top priority which reflects our initiative in various Digital Workshops conducted including an International Seminar with Cambridge Marketing College , London ,United Kingdom as a joint partnership with Maulana Abul Kalam Azad University of Technology (MAKAUT) on 19th March, 2019.

- We are mainly focussing on Facebook and Instagram platforms for student engagements. . The Facebook Analytics reveals an encouraging insights of 11,442 likes with over 5,000 page views in the last month. Similar trend is also leveraged in our Instagram Account whereby 759 followers of the students and parents follow our news, updates and admission related posts.

- We do have active participation in our Twitter and Linkedin platforms which mainly is targeted towards the guardians and parents to communicate information and updates. The engaging efforts have been also directed towards the rich alumni of the institution who are now successful members of society. The Analytics of Twitter is recorded as 31 Followers and Of Linkedin Is 3533 Connections till date.

- When it comes to creating a social media presence that communicates professionalism but also actively engages with multiple audiences with Video Posts, Thus we have an YouTube Channel dedicated to our institute having more than 50 Subscribers that like , share and comment on the various communication posts related to College events etc.

- As with any digital marketing strategy, there are obstacles that need to be overcome to find success on social media channels, thus we also have Off-Page Backling Digital sites to promote our posts and disseminate news about the campus in no time.

- Compliance of the National Academic Depository (NAD), applicable of PGCM / PGDM Institutions and University Departments

In pursuance of AICTE's mandate, college has informed its willingness to participate in NDML NAD Depository Services for lodgement of academic records in NDML NAD system.

- **List of facilities available**

- Games and Sports Facilities
- Campus life at BCREC has a vast array of sports activities The Outdoor facilities include athletics (Track field with all accessories), Cricket, Football, volleyball, basketball, badminton courts etc. The college provides excellent indoor facilities for table tennis, chess, carom etc. The Annual Sports Day Celebrations are organised every year on a grand scale with enthusiasm and fervour. Cultural and sports events bolster the confidence and team spirit of the students and participation in sports gives a boost to one's concentration and competitive spirit. Whether a budding sports star of the future or a sporadic exerciser, state of the art sports facilities of the college, backed up with a selection of excellent services, provide the ideal venue for a range of activities, available to all students, at all levels.

- Extra- Curricular Activities

Addressing the needs of the industry and society, MAKAUT has created a unique mechanism of awarding 100 Activity points over the academic grade for earning B.Tech degree on various **co-curricular and extra-curricular activities** apart from their compulsory and regular courses. In every semester, every student is required to prepare a file containing documentary proof of activities, done by him/her. This file is being verified and Activity Points are assigned by the concerned teacher, i.e. **MENTOR**, at the end of every semester. Points secured by the students are sent to Controller of Examinations, MAKAUT, after the completion of theory papers and before the publication of semester result. **A student's result of his/her final examination will be withheld until he/she completes the minimum activity points.** MOOCS (SWAYAM/NPTEL/Spoken Tutorial (per course) is the most prominent activity through which a student can earn minimum 20 points and maximum 40 points.

Activity calendars of the on-going Even Semester and the earlier Odd Semester are as follows:

- Soft Skill Development Facilities

In order to focus on better placement of our students and to make them Industry-ready, it has been decided that students right from their first year should be given training in a systematic manner for their gradual improvements on the following aspects :-

- **English Communication and Writing**
- **Aptitude Test**
- **Coding and Programming**
- **Group Discussion**
- **Mock Technical Interview on Basic Engineering Knowledge.**

Students get exposed to different soft skills like role play, mock presentations and interviews etc. in the state-of-the-art **Communication Management Laboratory** at Dr. B. A. Roy Engineering College. Improvement of body language and overall grooming are also stressed to enable the young engineers and managers to step out into the professional world with confidence. The key features include a 32-user high-end laboratory with individual user consoles for 1:1 teacher student interaction.

- **Teaching Learning Process**

- Teaching Load of each Faculty

Teaching load of faculty:
Work Load for all faculty members is around 40 hours per week of which teaching – contact hours is as follows, as per AICTE norms at present:

Principal - 4 hours/week

Professors - 8 hours/week

Associate Professors - 12 hours/week

Assistant Professors - 16 hours/week

For the above stipulations, two tutorial hours/two laboratory hours are counted as one teaching hour.

Work Distribution of Teaching Staff is <u>tentatively</u> as follows:

Designation	**Teaching**	**Research & Development**	**Administrative***
Principal	10%	30%	60%
Head of the Departments	30%	30%	40%
Professor	30%	40%	30%
Associate Professor	40%	40%	20%
Assistant Professor	50%	30%	20%

Administrative duties include exam related duties, question paper setting for internal tests and for MAKAUT semester examinations, mentoring of the students, guidance to the students regarding MAR activities, etc.

- Internal Continuous Evaluation System and place

Continuous Internal Evaluation System Continuous Internal Evaluation (CIE) and project work are the internal modes of assessment. The college being affiliated to MAKAUT adheres to the syllabus prescribed by the University. An academic calendar clearly specifying thedate/time of various academic events to take place during the academic session is notified prior to the commencement of the academic session. Semester examinations are held as per MAKAUT examination schedule at the semester end. The evaluation system, as adopted by the college, has two components, viz, 1. The Continuous Internal Evaluation 2. The End Semester Examination. The ratio of weightage is 30% in internal evaluation and 70% for semester theory examination. For practical, it is 40% in internal evaluation and 60% for semester Practical examination. For effective implementation of Continuous Internal Evaluation system at the college level, the college conducts three internal class tests on-line and off-line per course per semester and performance based improvement test. Theanswer scripts are given back to the students after evaluation for their information, providing sufficient transparency and accountability. Class test marks are shown to students along with their answer scripts by the teacher concerned enabling them to have

access to the evaluated answer scripts before the marks are forwarded to the examination section.
It also promotes the student to participate in mini project demonstration, model exhibition, programming skill competitions, mega projects, technical paper presentation, workshop, and seminar. Components include MCQs, Quiz competition, home assignments, Lab Exercises and Practical. The participation and performance of students in sports, NSS, and other extracurricular and cultural activates is also given weightage. The feedback system is provided to the students for giving the feedback on all fronts. By giving home assignment, tutorials, problems and taking follow up, help the student to explore various learning resources like the Internet and libraries etc. which will enable to develop self study, analytical and reasoning capabilities. Students are encouraged to see video lectures (NPTEL), e-books, models and charts.

- Student's assessment of Faculty, System in place
- For each Post Graduate Courses give the following :

Details of Post-graduate courses:

M.Tech	Title of the course	Sanctioned intake	Duration
	Modern Communication Engineering (ECE)	18	2 years
	Power System Engineering (EE),	18	2 years
	Computer Systems & Technology (CSE)	18	2 years
	Mechanical Engineering (ME)	18	2 years
MBA	Master of Business Administration	60	2 years
MCA	Master of Computer Application	60	3 years

Curricula and Syllabi:
The college follows the syllabus prescribed by MAKAUT and follows the semester pattern as per guidelines of AICTE and MAKAUT. The syllabus for each PG programme can be downloaded from the website of MAKAUT at **www.wbut.ac.in .**

Laboratory facilities exclusive to the Post graduate courses:
Four departments conducting PG programme have exclusive Research Laboratory in addition to the laboratories required as per syllabus

MOU with Texas Instruments (TI), USA for Innovation Lab

Department of Electronics & Communication Engineering (ECE), of Dr. B.C.Roy Engineering, Durgapur had signed a joint MOU with **Texas Instrument (TI), USA**, to set up TI Centre of Excellence and TI Innovation Lab for academic and research purpose. This TI Centre of Excellence gives students the opportunity to validate their knowledge and skills at a professional level. Hand-on experience of work and wide exposure during study period enhance students' opportunities for early placement.

MOU with Tata Power Skill Development Institute (TPSDI)
With initiative from Department of Civil Engineering (CE), Dr. B.C.Roy Engineering, Durgapur had signed a joint MOU with **Tata Power Skill Development Institute (TPSDI)**

with the objective of imparting practical skill sets among the engineering students particularly of Electrical, Mechanical and Civil Engineering relevant for the industry, especially for the power and allied sectors.

However for any reference on execution of this agreement on behalf of the **CSIR** on all developmental matters, **CSIR-Central Mechanical Engineering Research Institute**, a constituent laboratory under **CSIR** having its office at Mahatma Gandhi Avenue, Durgapur-713 209 (hereinafter called **CSIR-CMERI**) may be referred in the first instance.

1. PREAMBLE

1.1 CSIR-CMERI is the apex R&D institute for mechanical engineering under the aegis of the Council of Scientific and Industrial Research (CSIR). Being the only national level research institute in this field, having expertise in Advanced Design And Analysis, Aero-systems, Industrial Research & Services, Farm Machinery, Business Innovation and Skills, Design Management and System Engineering ,Energy Research and Technology , Environmental Engineering, Foundry , Information Technology, Materials Processing & Microsystems, Robotics and Automation and Surface Engineering and Tribology, Condition Monitoring, Residual Life Assessment with proven track record in product and process development for engineering applications, is also engaged in the high end technology areas.

1.2 Dr. B. C. Roy Engineering College, Durgapur, has been set – up by a registered Society named after the legendary Chief Minister of partition-ridden West Bengal, Dr. Bidhan Chandra Roy. The industrial city of Durgapur had, and still has, a State – run Engineering College – National institute of Technology (formerly Regional Engineering College), but the demand for engineering education far outstripped supply. Emboldened by the policy directions of the State and Central Government to widen the scale of engineering education, the Society, in 2000 embarked on the dream project of extending engineering education at Dr. B. C. Roy Engineering College with four disciplines – Computer Science and Engineering, Information Technology, Electrical Engineering and Electronics and Communication Engineering at the under – graduate level with sixty seats intake in each discipline, after gaining approval from All India Council for Technical Education, New Delhi and affiliation from the University of Burdwan. In the year 2001, the affiliation was transferred to West Bengal University of Technology, now renamed as Maulana Abul Kalam Azad University of Technology.

This Engineering College gradually enlarged the ambit and added three more undergraduate engineering disciplines – Applied Electronics and Instrumentation Engineering in 2001, Mechanical Engineering in 2003 and Civil Engineering in 2009. Also introduced were Masters level courses in Management and Computer Applications in the years 2004 and 2005.

Likewise, Masters degree courses in Electrical Engineering in 2007, Electronics and Communication Engineering in 2007, Computer Science and Engineering in 2009, were introduced, and in 2012, the M. Tech programme in Mechanical Engineering was introduced at the College.

In 2021 two undergraduate degree programmes in Artificial Intelligence and Machine Learning, and Computer Science and Design have been introduced. These courses of study are in contemporary and emerging areas of Science and Technology, and have gained recognition and popularity amongst learners.

The College received National Board of Accreditation for three under graduate disciplines in 2008 – Computer Science and Engineering, Electrical Engineering and Electronics and Communication Engineering. Presently two undergraduate programmes are **NBA Accredited**, and two more – Mechanical Engineering and Information Technology are awaiting accreditation since 2019.

Two other programmes – Electrical Engineering and the Masters degree programme in Management have also submitted documents relating to the accreditation process, and hopefully the much awaited inspection by the NBA Authorities shall not be too far away.

To promote great learning opportunity for the students who would be able to gain first-hand knowledge in the applied fields of Embedded System, Electrical Drives, Solar and Renewable energy, Mechanical, Robotics, Micro-Manufacturing, Patent filling and to also extend the knowledge- base utilizing the expertise and infrastructure of **CSIR-CMERI** as a part of the **CSIR** Integrated Skill Initiative, the two institutions, i.e. **CSIR-CMERI** and **BCREC** agree to the following broad terms of co-operation.

NOW IT IS HEREBY AGREED AND DECLARED BY AND BETWEEN THE INSTITUTIONS HERETO AS FOLLOWS:

10.20 Best Practices adopted, if any

Teachers are always looking to innovate; as such, they always try new things to add to their pedagogical bag of tricks. Some findings linked student outcomes to several highly effective classroom practices.

1. Teacher's Clarity

When a teacher begins a new unit of study or project with students, he/she clarifies the purpose and learning goals, and provides explicit criteria on how students can be successful. Teachers also present models or examples to students so they can see what the end product looks like.

2. Classroom Discussion

Teachers need to frequently step offstage and facilitate entire class discussion. This allows students to learn from each other. It's also a great opportunity for teachers to formatively assess (through observation) how well students are grasping new content and concepts.

3. Feedback

Along with individual feedback (written or verbal), teachers need to provide whole-group feedback on patterns they see in the collective class growth and areas of need. Students also need to be given opportunities to provide feedback to the teacher so that he/she can adjust the learning process, materials, and instruction accordingly.

4. Formative Assessments

In order to provide students with effective and accurate feedback, teachers assess frequently and routinely where students are in relation to the unit of study's learning goals or end product (summative assessment). Hattie recommends that teachers spend the same amount of time on formative evaluation as they do on summative assessment.

5. Metacognitive Strategies

Students are given opportunities to plan and organize, monitor their own work, direct their own learning, and to self-reflect along the way. When students are provided with

time and space to be aware of their own knowledge and their own thinking, student ownership increases.

ξϖ. Nature and Extent of involvement of Faculty and students in academic affairs / improvements
Each and every faculty member has been involved with mentoring for maximum 20-25 students from all the years to provide specialized guidance to the students in matters of academics, career, personality development, social obligation, etc. Regularity in the classes is being treated as "**top priority**". Head of the Departments regularly monitor the class schedule of the day in the early morning hour and engage substitute in case of absent teacher. As per directives of AICTE and the University, regular classes have been provided in the Class Routines for MOOCs courses and MAR activities.

Students are also reciprocating with the initiatives taken by their teachers.

ξ७ι. Mechanism / Norms and Procedure for democratic / good Governance

Dr. B. C. Roy Engineering College, Society recognizes the need for decentralization for the growth of the college and accords autonomy commensurate with the level of management. Heads of the departments are appointed who are given autonomy for efficient governance. The roles and responsibilities of administrators/decision makers for various assigned jobs listed below clearly depict the delegation of authority, providing operational autonomy leading to a decentralized governance system.

Director implements and monitors the academics to cater to the college's vision and mission. He is responsible for academic development of the college and

monitors progress of various teaching/learning processes. He also monitors Research and Development activities in the college through Project Monitoring & Industrial Liaisoning Cell (PMIL).
Registrar is responsible for supervision and management of all administrative and operational functions.

Head of the departments are responsible for the day to day academic activities and assuring quality in teaching and learning process and administrative functions of the department and monitor various students' activities.
In addition, Librarian, Professor-In charge of Examination, Workshop Superintendent take care of library resources, examination and workshop related activities. Other support functions like admission of the students is handled by Senior Manager (Administration), Finance & Accounts related issues are looked after by Senior Manager (Finance). Placement Cell is looked after by Head (Training & Placement) and the campus is looked after by Campus Administrator and his team.

ξϖιι. Student Feedback on Institutional Governance / Faculty Performance
Student feedback is taken twice in a year (once in every semester) through online and appropriate action is taken after analysis of the same in the Academic Council Meeting.
